

June 23, 2017

Dear Colleagues,

Santa Clara County Behavioral Health Services Department (SCCBHS) has hired Resource Development Associates (RDA), a consulting firm, to hear about the county's mental health needs and the strengths and gaps in the mental health system. As part of this effort, we've planned surveys for mental health consumers.

Please send this survey link to **all of your mental health consumers. A paper copy is also attached if you need to support your consumers and administer the survey. Please send paper copies back to me.**

The survey is anonymous, and we will not ask for your name. Please follow the link or cut and paste link in browser to survey and follow the instructions. Survey link:
